 160.19 MM
 219.51 NV

This is the data lookup table used to determine the shooters' new classification shown in column G of the main scoring spreadsheet.
 It is arranged slightly differently than the official IDPA classification chart, due to requirements of the Excel VLOOKUP-in-range function.
 Specifically, this table is arranged from the shortest time to the longest time, top-to-bottom.
 Therefore, the times shown to the left of each class are the FASTEST time you can get, and still stay in that class, without being promoted to the next higher class.
 Sorry for the confusion, but this is just how Excel VLookup works!
